Driving Pleasure

BMW MINIATURES

DISCOVER THE DETAILS.

BMW MINIATURES.

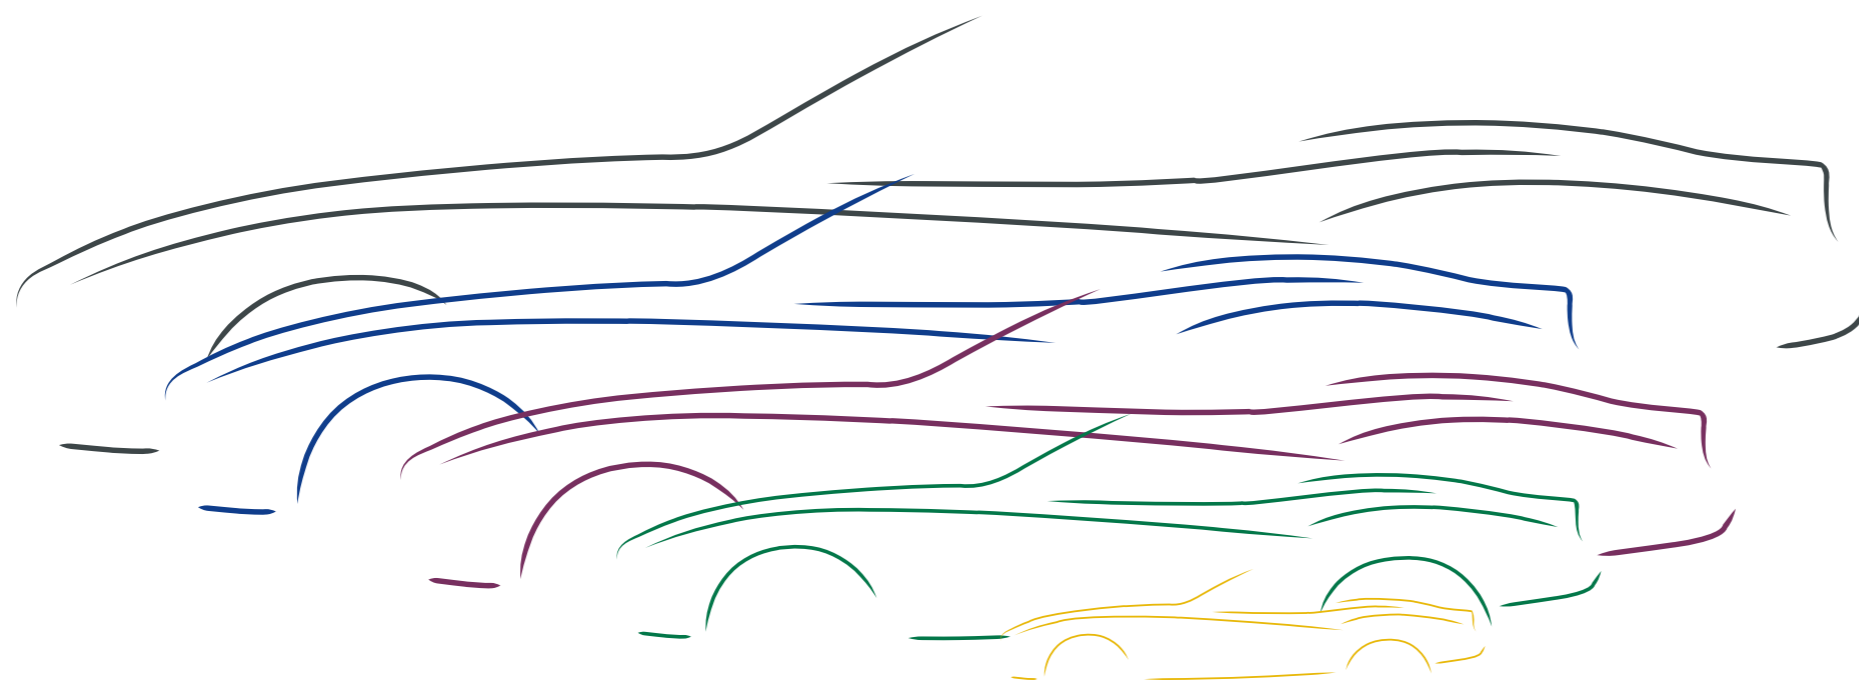

BMW has been dedicated to the sheer driving pleasure since 1929. The Original BMW Miniatures collection offers you the opportunity to get up close and personal with over 80 years of fascinating automobile history. Discover the incredible detail that has been achieved in months of development work. These hand-crafted miniatures are mini masterpieces, many of them involving over 100 process steps with tiny individual components. The finished models are a fitting tribute to the perfection of the original cars.

The different scales at a glance:

1:18 Models of this size will allow you to admire the beauty of the engine and chassis. The interior features original carpeting, a detail that works particularly well when the doors are open. Imprint elements enhance the top-quality look and feel.

1:43 These miniatures are so small that even the largest collection doesn't take up too much space. Despite their size, the miniatures feature a wealth of detail. That's why models in this scale have plenty to please connoisseurs and collectors alike. From the delicate rear-view mirrors and chrome-finish radiator grilles to the realistic looking brake systems, the faithful detailing found in these miniatures is quite astounding.

1:87 This scale originated with H0 gauge model railways. These faithful miniatures are made from synthetic materials and feature impressive details such as authentic paint finishes.

Love of detail.

Using advanced software, all the data of a full-scale BMW are converted to scale, with details retained. On 1:87 models, for example, the logo can only be seen under a magnifying glass.

Handmade.

All BMW Miniatures are made by hand, and every single one is subject to post-assembly quality control. The inspectors don't miss the slightest scratch.

Original colours.

The paint finish of BMW Miniatures uses the original BMW paintwork colours. So you can use products from the Original BMW Car Care range to care for your miniatures.

DISCOVER THE DETAILS.

It doesn't matter whether you see it on a twisting country road or on a polished mahogany desk: a BMW is always a fascinating sight. To ensure that BMW Miniatures look just as attractive as the originals, they are manufactured in close cooperation with BMW designers. This applies to BMW Art Cars as much as it does to the new BMW 5 Series. Every BMW Miniature delights with numerous details and precise workmanship.

At the start of production, the design department uses computers to process

the specifications laid down by the BMW engineers. To make sure that important details like the logo or windscreen wipers are both recognisable and robust enough to survive handling, simply miniaturising the original parts will not do. Instead, individual parts have to be redesigned almost from scratch.

Afterwards, a die-cast mould is fashioned for every component. This is so time-consuming that it can take up to ten weeks. But it is also well worth the effort: the die-cast moulds provide the framework

for the miniature's body and are filled with either molten plastic or zinc, depending on the scale. After a first, stringent quality control process, the casts enter the paint shop, where they are painted in three steps, using the same paint that is used for the respective full-sized BMW model.

After hardening and cooling it's time to tackle the details: the so-called tampon printing process enables us to print on even the smallest components. With our smallest-scale models, the results of this advanced process – for example a detailed

replica of the BMW logo on the bonnet – can only be fully appreciated when viewed through a magnifying glass.

Tiny chrome surfaces provide further exquisite details to enjoy. They make the exterior mirrors sparkle, for example, and are also used to give the radiator grille its trademark shiny appearance. Real carpeting in original BMW colours for the footwells and luggage compartment and realistic reproduction of leather up-holstery seams make the interior of the 1:18-scale models look incredibly authentic. Once all the

details have been taken care of, the individual components are assembled into a real BMW – by hand. And it is this precise workmanship that makes BMW Miniatures so unique, turning every miniature into a true original.

BMW 1 Series Convertible (E88). The level of detail of this 1:18 scale BMW 1 Series Convertible leaves nothing to be desired. The miniature features the elegant tailgate and elongated bonnet that people have come to know and love on the original vehicle. The brake system and engine compartment are faithfully modelled on the original. The doors, boot lid and bonnet can be opened, permitting an interior view that will warm the heart of any BMW enthusiast.

Scale: 1:87

BMW 1 Series Coupé (E82). This miniature is a real eye-catcher - and not just because of its colour. The elongated bonnet, trapezoidal roof shape and crisply formed tailgate demonstrate just how perfect proportions can be. The original wheel rims with BMW logo are an inspired touch. The interior of the 1:18 scale model of the BMW 1 Series Coupé also promises plenty of enjoyment. Leather seats and genuine carpeting make it feel like you are looking at the original.

Scale: 1:87

Black Sapphire 80 43 0 427 066

BMW 3 Series Coupé (E92). Clear proportions are the key to the BMW 3 Series Coupé, its sporting nature emphasised by the accentuated linear design. The rear spoiler in the same colour as the vehicle itself underlines this sporty character.

Scale: 1:18
Black Sapphire 80 43 0 407 222
Space Grey 80 43 0 407 220

BMW 3 Series Convertible (E93). This miniature will defy any weather. The BMW 3 Series Convertible features an attractively long wheel base, stretched bonnet and wide double kidney grille. This is a real eye-catcher, particularly in the 1:18 scale version. Like the original BMW 3 Series Convertible, the miniature also has a folding hardtop.

Scale: 1:87

BMW 5 Series Saloon (F10). Joy at first sight: the generous panorama window of the 1:18 BMW 5 Series model, along with the opening doors, allows you to admire the detailed reproduction of the saloon's interior. It is a sight worth seeing, with real carpeting, lovingly reproduced seams in the upholstery and a coloured BMW logo on the steering wheel. The exterior impresses with its elegant design and special features. For example, you can open not only the boot lid and bonnet, but also the fuel tank filler flap. The exactly reproduced rims with coloured BMW logo make sure there is more joy in store for you after that first glance.

BMW 5 Series Touring (F11). A top performer, even as a miniature. The BMW 5 Series Touring at 1:18 scale not just permits the examination of engine and chassis: its panorama roof also enables you to admire the painstakingly reproduced interior, which features real carpeting. The folding rear seatback, individual seatbelts and visible leather seams on the seats and trim not just exemplify style but also a great love of detail. This is something that is equally apparent in the exterior, which features original rims complete with BMW logo, a functional fuel tank filler flap and a loving reproduction of the innovative tailgate with dual opening function – as well as that special mix of dynamism and design that you only find in a real BMW.

80 43 0 427 655

BMW 328 Roadster (24-hour Le Mans). When the BMW 328 Roadster first competed in the Eifel Race on the Nürburgring circuit in 1937, it was already ahead of its time. The hydraulically controlled drum brakes were far superior to the standard issue cable brakes. In 1939, BMW developed a coupé based on the 328 chassis for the Le Mans 24-hour race. This brought victory to the drivers, Max zu Schaumburg-Lippe and Fritz Hans Wenscher in the 2 litre class. Special details on the 1:18 scale model include the two leather belts across the bonnet and the central closures of the steel disk wheels.

Scale: 1:18
Crème White
80 43 0 300 752

BMW 328 Roadster Mille Miglia 1938 #113. 1938 was the year that Alfa Romeo and BMW first went head-to-head in the Mille Miglia and was also BMW's first appearance in this race. This marked BMW's breakthrough as one of the most important race car manufacturers in Germany.

Scale: 1:18
Crème White
80 43 0 300 753

BMW 328 Roadster. The BMW 328 model was built between 1937 and 1939 and soon proved itself unbeatable in the 2 litre class at international sports car races.

Scale: 1:18

BMW Set: Modern classic 2002ti (2-piece set). The 02 Series presented in 1968 is regarded as one of the classics of recent automobile history. One of the attractions of this model series was the sports version, the 2002ti. It made a name for itself as a powerful, sporty car that boasted 120 bhp under the bonnet. Almost 29,000 BMW 2002 models were built in the first year of production, selling at a price of DM 9,250.

Scale: 1:87
Coupe: Fjord Blue Metallic
Convertible: Phoenix Orange

BMW F 800 GS. Thanks to its light weight and enormous power reserves, the BMW F 800 GS is the perfect touring machine. Launched in 2008, this motorcycle has proven itself on countless tours. The 1:10 model features numerous details, such as the double disk brakes on the front and rear wheel. The topcases, which can be fastened to the chassis, are a further reminder that this is the touring machine par excellence.

Two Isettas on a Magirus truck. Two versions of the Isetta, which became the symbol of a new mobile generation, are seen here on the Magirus flatbed truck. One Isetta comes in a Fire Red and Pearl White colour scheme with dust grey sunroof and stone grey interior. The second model, in Signal Blue and Pearl White, also has a dust grey sunroof, but the interior is platinum grey. The truck bears the original motto “Freude haben, Kosten sparen, BMW Isetta fahren” (Enjoy life, save money, drive the BMW Isetta). This miniature set is supplied in the historical illustrated box with window.

Light & Sound. As the name suggests, the Light & Sound BMW models have something more to offer: the pullback mechanism enables them to drive with front and rear lights on while engine noises are heard. Open the driver door and the alarm will sound. Open the passenger door to hear the car's horn.

BMW Free Wheel Cars. If you want to give future BMW drivers a head start, the BMW 1 Series or BMW X6 Free Wheel Car might be just the thing. With its articulated wheels and 1:64 scale, it can explore every corner of your kids' room while teaching them about the fascinating world of BMW. For even more fun, the BMW 1 Series/X6 is compatible with the Maisto Free Wheel tracks.

ENTER THE EXCITING WORLD OF BMW LIFESTYLE.

The screenshot shows the BMW Lifestyle website interface. At the top, there's a navigation bar with links like 'My profile', 'Contact', 'Help & Service', 'Downloads & Media', and 'Dealer locator'. Below that, a main banner features a cyclist on a road bike with the text 'BMW LIFESTYLE' and 'BMW M Bike Carbon Racer'. Underneath the banner, there are sections for 'Top Sellers BMW Sports Collections' and 'Top Seller BMW Collection'. The 'Top Sellers' section includes items like 'Ladies' Track Jacket, Motorsport Collection', 'Unisex Wind Jacket, Yachtsport Collection', and 'Men's Polo Shirt, Golfsport Collection'. The 'Top Seller' section features a 'JOY Beach Towel, Dimensions: 100 x 180 cm.'. At the bottom, there's a search bar, a shopping cart icon, and social media links.
