

Mercedes-Benz Collection 2011

Mercedes-Benz

The best or nothing.

Mercedes-Benz Collection 2011

GOTTLIEB DAIMLER'S ORIGINAL APPROACH IS A THREAD THAT RUNS THROUGH THE HISTORY OF MERCEDES-BENZ AND IS MORE PRESENT TODAY THAN EVER. Our understanding of "the best" is reflected in the way we strive to achieve perfection, in the way we convey the fascination of Mercedes-Benz in everyday life and, of course, in our responsibility to you as a customer.

The Mercedes-Benz Collection also follows this approach: groundbreaking design with an eye for detail. We consistently implement the style which Gottlieb Daimler so influenced: a brand that has class. A class all of its own. A class that can be experienced in the quality of its products and premium materials, which we process with great care. In order to guarantee our high quality standards in the long term, all our products are regularly subjected to laboratory and safety tests by the independent testing institute SGS. The fact that we don't just stop at legal requirements, but also check our products in terms of moral and ethical considerations, is down to the same reason as everything else we do at Mercedes-Benz: the best or nothing.

With the Mercedes-Benz Collection 2011, we have once again put together a selection of clothing and accessories for you which are truly worthy of our star. We hope you enjoy the Mercedes-Benz Collection 2011.

Contents

MERCEDES-BENZ ESSENTIALS 8 – 37

Stylish design, elegant looks. Classic styles, endless combination options. For every situation. For every age group. For all those who love the star brand.

LIFESTYLE SELECTION 38 – 53

Fashion-conscious, with an assured sense of style. Highly individual. This compelling Selection features high-quality materials and exceptionally elegant design.

GOLF SPORTS SELECTION 54 – 63

Add a touch of elegance and style to your favourite sport: Mercedes-Benz offers a range of first-class products for the green. Products characterised by precision, quality and unmistakable appeal.

AMG SELECTION

SLS AMG SELECTION 64 – 69

Sparkling technology. Remarkable innovation. Compelling design. The exclusive products which make up the inspiring AMG Selection and the SLS AMG Selection ooze power and functional good looks.

BIKE SPORTS SELECTION **70 – 89**

In top form, with quality and functionality. All the things you appreciate about Mercedes-Benz can be found here in our Bike Sports Selection.

TRUCKER SELECTION **90 – 109**

When power, reliability and originality count, you need a partner you can depend on. The intelligent Trucker products, designed for life on the road, are all about robust style. And, of course, that familiar Mercedes-Benz quality.

CLASSIC SELECTION **110 – 125**

Perfect design and top quality. Values that are as timeless as the products that make up the Classic Selection. An exclusive collection of genuine classics.

MODEL CAR SELECTION **126 – 135**

Little cars with big appeal. Our miniature models faithfully echo the colour schemes and captivating details of their larger counterparts. A genuine treat for fans young and old.

Mercedes-Benz stabilisers Simple to fit to Mercedes-Benz Kids' Bikes. Available as an option. B6 799 5798

Carrier systems

The Mercedes-Benz carrier systems - and further details - are available from your Mercedes-Benz partner

Tailgate-mounted bicycle rack The rack provides a secure hold for up to two cycles with a maximum frame diameter of 98 mm (circular frame tubes) or 110 x 70 mm (oval frame tubes). The innovative two-piece design makes it easy to fit and remove. Cannot be fitted in conjunction with the roof spoiler. Available for the A-Class and B-Class.

Rear-mounted bicycle rack for trailer coupling The basic version of the rack is designed to secure two cycles in place on the optionally available trailer coupling. It is suitable for cycles with a maximum frame diameter of 80 mm (circular frame tubes) or 80 x 45 mm (oval frame tubes). The simple fold-down mechanism means that the boot/load compartment can still be opened when the cycles are in place. An extension kit is available for the basic version, allowing a third cycle to be transported. Locks can be fitted to help prevent theft of the attached cycles.

Coil lock Designed to prevent theft. Available as an option for the New Alustyle bicycle rack.

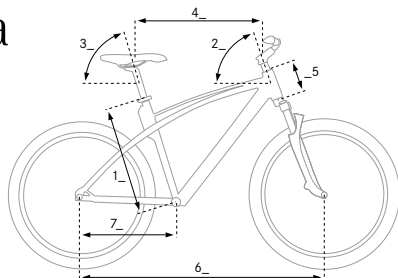

Internal bicycle rack The rack is suitable for two cycles with a maximum wheel size of 26" and is supplied with a practical bag for securing and transporting the removed front wheels. Because cycles vary significantly in design, it may be necessary to adjust or remove parts such as the handlebars, saddle, mudguards, etc. We recommend a trial installation before purchase. Available for the A-Class, B-Class and M-Class.

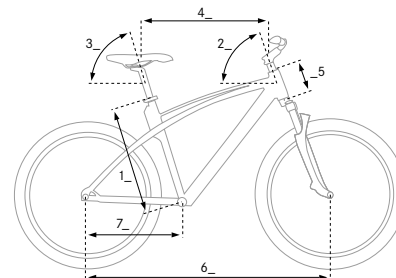

| 1 NEW ALUSTYLE BICYCLE RACK Depending on the maximum roof load and the usable width of the basic carrier bars, up to four bicycle racks can be fitted per pair of basic carrier bars. Each bicycle rack can hold one bicycle with a maximum frame diameter of 98 mm (circular frame tubes) or 110 x 70 mm (oval frame tubes). The support frame folds down when not in use, reducing drag when travelling without cycles. Cycles can either be attached to the rack once it has been fitted to the roof or at ground level before the rack is fitted. Details of compatible model series on request. **| 2 ALUSTYLE BASIC CARRIER BARS** The Alustyle system opens up a wealth of flexible options when it comes to transporting sports equipment and luggage. Combine the basic carrier bars with a variety of different roof-mounted accessories. The basic carrier bars ensure the highest degree of safety and optimum aerodynamics. Details of compatible model series on request.
