Original BMW accessories.

Designed for optimum ground contact. BMW wheels and tyres.

When developing new wheel designs, BMW engineers pay close attention to how the wheel will work with its tyre. So that you can enjoy driving your BMW in complete safety, all BMW wheel/tyre combinations undergo rigorous selection and testing processes, and every last detail of the design is optimized for use with the specific BMW model in question. A variety of tyres featuring runflat technology are available. These have strengthened sidewalls made from extremely heat-resistant rubber, which ensures the tyre retains its shape, so the car can keep driving for another 150 kilometres at up to 80 km/h, even after a complete loss of tyre pressure.

At any given moment, the part of a tyre that is in contact with the ground is not much larger than the palm of your hand. Yet this small area has to transfer all the power and performance of the car's engine and brakes onto the road. For this reason, it is vital that the wheel, tyre and chassis components all work together as effectively as possible.

At BMW, achieving this involves extensive simulations and a strenuous testing regime. The performance of all wheels and tyres is tested under all imaginable conditions, and a thorough analysis of the results is then carried out. Wheel and tyre combinations are also tailored to the spring damper units and electronic driver aids on the specific models they will be used with. In this way, dynamism, ride comfort and safety are all combined to ensure that unmistakable BMW driving experience.

Tyres that have been tested in this way and certified for compliance with BMW's strict quality standards are indicated with a five-pointed star after the tyre specification. The tyre specification itself – for example 245/40 R20 95Y – gives information about the tyre's width in millimeters (245), height-to-width ratio expressed as a percentage (40), type (in this case, R for "radial"), rim diameter in inches (20), load rating (e.g. 95) and speed rating (in this case, Y – suitable for speeds of up to 300 km/h). The star is only given to tyres that have been successfully tested for compliance with BMW standards on wheels of that size on the specific model in question. Runflat tyres are also indicated with the letters RSC (standing for "Runflat System Component").

The perfect blend of form and function. Original BMW alloy wheels.

Original BMW alloy wheels are tailored to your BMW in a number of different ways. Of course they fit in harmoniously with the overall look of the vehicle, but they are also adapted to it functionally as well. For example, the shape and placement of the gaps between the spokes has been carefully thought out to maximize ventilation of the brakes, and the thermal conductivity of the alloys used also contributes to the cooling process. Original BMW alloy wheels designed for use with runflat tyres have raised humps that prevent depressurized tyres from slipping out of position, even when cornering.

BMW develops separate alloy wheels for all of its models. In the first stage of this highly complex process, a design brief is given to a variety of designers, and their sketches are subsequently evaluated by a panel comprising representatives of all the different areas involved in BMW wheel development. CAD is then used to create virtual models of the selected designs, which can then be tested on the BMW model in question. Finally, full-size Ureol models are made, and the design is fine-tuned to ensure that it compliments the overall look of the car.

A choice of manufacturing processes is available to turn the approved designs into a reality. Wheels are produced in accordance with strict BMW quality standards using either a low-pressure casting or a forging process, depending on which best suits the design. With some multipart, bolted alloy wheels, a combination of both methods is used. The entire design and manufacturing process is rigorously scrutinized and fully documented at every stage. Cast wheels are X-rayed to ensure there are no air bubbles in them, and only if they pass this test are they given a quality stamp on the back side.

Forged wheels, meanwhile, are rolled and beaten, making the walls thinner and thereby reducing weight to a minimum. The metal also undergoes an ultrasound scan before the forging process begins, to make sure it is free from defects.

What we have just described represents just two of the many stages that make up the BMW quality and safety assurance process. This ensures that every step of the manufacturing process is fully documented, right up to the moment the wheel is delivered.

This exhaustive multistage development and testing process ultimately results in Original BMW alloy wheels that meet the highest standards in terms of both form and function, whilst being perfectly tailored to your BMW. You will admire these wheels at first glance, and your admiration will only grow with every mile you drive on them.

Original BMW exterior accessories offer you a new outlook on life. Take for example the high-quality alloy wheels, which are specially designed to complement the elegant styling of the BMW 7 Series. Like all BMW exterior components, they have undergone the most stringent tests on both the materials and the design to ensure that they meet BMW's strict quality standards. So you can be confident that your BMW 7 Series is as good to drive as it is to look at.

1 Star spoke 89 (see pp. 4+5)
19-inch, cast.

2 Star spoke 95
19-inch, cast.

3 Spoke styling 176
19-inch, cast.

4 Y spoke 149
20-inch, cast.

5 Star spoke 128
21-inch, cast. Also available in chrome (not shown).

Wheel bolt locks (see p. 5)
The special BMW locks offer excellent protection against theft. Bolts can only be removed using a special tool, which is supplied as standard with the wheels.

1 White direction indicators

Available for front, rear and sides, they emphasize the unique lines of the BMW 7 Series. For vehicles manufactured up to March 2005.

2 Brilliant Line radial styling 32 (see also front cover)

20-inch, cast.

3 Star spoke 231

19-inch, cast.

4 Star spoke 92

19-inch, forged and polished.

5 V spoke 126

19-inch, cast.

6 Double spoke 93

18-inch, cast.

1 Multi spoke 94*

18-inch, cast.

2 Double spoke 174*

18-inch, cast.

3 Star spoke 175*

18-inch, cast.

4 Mud flaps

In body colour, available for front and rear wheels. Protect your car and the vehicle behind you against dirt and loose chippings.

5 Snow chains

The snow chains have been specially adapted for use with BMW tyres. They are easy to fit, and offer optimum grip on snow and ice.

6 M cross spoke composite wheel 101

20-inch, casting/rolling technology. Two-part with titanium bolt. Burnished rim flange.

*Also available with runflat tyres. For more information, see pp. 6-9.

1 - 3, 6 Xenon headlights

Illuminate the road and the edge of the road clearly, evenly and over a broad area. With automatic headlight range adjusters. For dipped (Fig. 2, blue area in illustration) and main beam headlights (Fig. 3, blue area in illustration). Only available in conjunction with the headlight washer system. For vehicles manufactured up to March 2005.

4 + 5 Car covers

These washable car covers with their BMW lettering are easy to handle and tailor-made for the BMW 7 Series. The silver **outdoor car cover** (Fig. 4) is heatproof and water and dirt-repellent, and features ventilation openings, while the **indoor car cover** (Fig. 5) is made of an easy-stretch, antistatic material.

7 Headlight washer system

Clean headlights ensure that the road is optimally illuminated at all times.

Original BMW interior accessories let you put your personal stamp on the inside of your BMW 7 Series. Whether the look you prefer is elegant or exclusive, the unmistakable quality of the BMW design, materials and workmanship will create an ambience guaranteed to impress even the most discerning of passengers.

1 Wood/leather-covered steering wheel

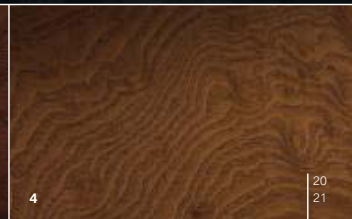

This steering wheel further enhances the exclusive feel of your car's interior. Available in **dark variegated ash** (Fig. 1+3), **light variegated ash** (Fig. 4, see also p. 18) and **dark cherry** (not shown, for vehicles manufactured up to March 2005).

1, 3 + 4 Interior trim strips in fine wood

This exclusive trim is expertly crafted in fine wood, and consists of interior trim strips for the dashboard, the centre console, the centre armrest and the doors. It is available in **dark variegated ash** (Fig. 1+3), **light variegated ash** (Fig. 4), **black Individual Piano varnish** (not shown), **Vavona grey** (not shown) and **burr walnut with inlaid work** (not shown).

2 Leather-covered sport steering wheel

With multifunction option.

1+2 Multifunction storage system

Incorporated in the centre armrest. Various modules are available: inlay mat, glasses/mobile phone compartment, waste container, and CD and cassette boxes offer a wide range of storage options.

3 Drinks holder

Available for the centre console.

Rear-view mirror (not shown)

Automatic anti-dazzle function operates when light from vehicles travelling behind strikes the mirror. With a digital compass, which indicates the direction in a 45-degree scale, and with a universal remote control, which activates such devices as garage door openers, alarms or door locking systems at the touch of a button. Also available with compass only.

4 LED torch, rechargeable

This pocket-sized torch can be connected to the 12-volt socket for charging.

5 Halogen reading lamp

Suitable for map reading. The bending arm allows you to adjust the light beam in any direction.

6 Pedal pads, stainless steel

A stylish detail in the footwell.

6-8 Floor mats

Dirt-repellent, water-resistant and perfectly fitted. Available in anthracite, beige and grey.

City floor mat (Fig. 6)

Rubber floor mat (Fig. 7)

Velour floor mat (Fig. 8)

2

3

4

1 Sport seat

Seat height, seat inclination and thigh support can be individually adjusted. Side bolsters hold the occupant firmly in place, even when cornering.

2 Belt holder

Attaches quickly and simply to the headrest bars, ensuring the belt is easily reachable in any sitting position.

Belt extension (not shown)

The front seat belts can be extended by up to 20 cm.

3 Active seat

The surface of the seat is divided into two sections, which alternately rise and fall in a wave motion, for relaxed travel on even the longest journeys. Available for driver and front passenger, in conjunction with standard or comfort seats.

4 Rear seat heating

The seat surface and back begin warming up a short way into your journey. Three switch settings allow variable heating.

5 Comfort seat

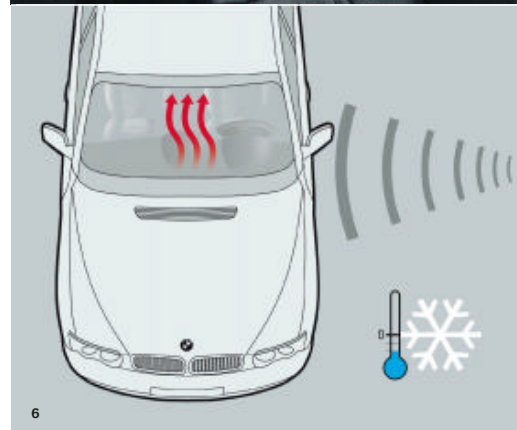

The tilt of the uppermost third of the seat back, the headrest, thigh support and side bolsters can be electrically adjusted. Available for driver and front passenger. With memory function for driver and front passenger seats, wing mirrors and steering column.

6 Independent heating

Generates comfortable warmth inside the vehicle before you start a journey in the winter months. During the startup phase the engine is protected and fuel consumption reduced by the preheated cooling circuit. Switched on with the **control display**, **ThermoCall** or the **remote control**. These controls can also be used to activate the independent ventilation function.

5

6

The BMW range of user-friendly child seats are all upholstered in breathable, moisture-wicking fabric, and offer outstanding ease of use and comfort. They are available in a choice of a Formula 1 design or various colours, and feature an embroidered BMW logo.

1 BMW baby seat 0+, with/without ISOFIX

Designed for children weighing between 3 and 13 kg (aged up to around 18 months). A seat reducer is also available. The baby seat shell is mounted facing away from the direction of travel, either on the rear seat, or, provided the airbag is deactivated, on the front passenger seat. The shell can be easily detached from the reboard frame, and used separately as a carrycot. With detachable sun screen.

2 + 3 BMW junior seat I-II, with/without ISOFIX

Suitable for children weighing 9 to 25 kg (aged approx. 9 months to 7 years). The seat features a restraint cushion (Fig. 2) and a height-adjustable back. The use of the ISOFIX function is permitted for children weighing up to 18 kg. Children weighing more than this should be secured without the restraint cushion, using the seat belt (Fig. 3).

4 BMW junior seat II-III

Suitable for children weighing 15 to 36 kg (aged approx. 3 to 12 years). The seat can be quickly and easily secured in place with the three-point belt. The height of the seat and position of the headrest and side bolsters are manually adjustable, and the seat offers excellent lateral support. The recline position makes the BMW junior seat II-III ideal for long journeys, and the removable cover is machine-washable. A rucksack to carry the seat when not in use is available separately.

Original BMW communication and information system accessories combine state-of-the-art technology with total flexibility. Whether you want a navigation system that can guide you directly to your destination, excellent telephone links, or just a little entertainment, there's a BMW accessories solution here that's right for you. So your journey can be whatever you want it to be.

1 BMW Advanced DVD system

Comprises 7-inch colour monitors integrated in the front seats. A six-slot multimedia changer capable of playing video DVDs, and picture and audio CDs (including MP3 format) is built into the luggage compartment, and AV sockets allow the connection of devices such as games consoles and video cameras. The tilting monitors provide a brilliant picture, are nonreflective from every angle and can also be operated separately. The system comes with two cordless stereo headphone sets and two infrared remote controls. Depending on the equipment package, audio playback via the BMW radio loudspeakers may also be possible.

2 TV function

Depending on the car's equipment levels, it is possible to watch analogue and/or digital (DVB-T) TV programmes on the control display. This function only works when the car is stationary. If the **DVB-T set-top box** is fitted, rear-seat passengers can watch digital TV programmes on the BMW DVD system monitors even when the car is in motion. Operation is via the iDrive controller or infrared remote control. More information available on request.

3 iPod interface

Enjoy all your favourite music on the road. The interface connects the iPod directly to your vehicle's audio system: artist, song and genre information and playlists can all be viewed on the control display, and music can be selected using the iDrive controller or the multifunction steering wheel. The iPod is stored securely in the glovebox, and the battery is charged during playback through the vehicle's electrical system.

Aux connector cable (not shown)

With gold-plated 3.5-mm jack plug. Two lengths available.

4 Professional navigation system

With 8.8-inch display. Uses GPS to direct you swiftly and accurately to your destination. Guidance is provided by voice instructions and route maps or directional arrows. The splitscreen function enables information from two sources – for example, navigation system and radio menu – to be displayed at the same time. The dynamic route guidance system suggests an alternative route when the radio receives information on traffic congestion via TMC.

Voice input system (not shown)

Voice input for the Professional navigation system makes life easier for the driver, enhancing safety, convenience and ease of use.

Digital roadmaps (not shown)

The computer uses digital roadmaps to work out the route in no time at all. Available as a **DVD, CD or CD set** in eight country versions.

1 Bluetooth hands-free kit

Suitable for most Nokia, Sony Ericsson and Motorola mobile phones. Using a phone-specific and easily interchangeable **snap-in adapter**, every driver can make calls on their phone via the hands-free kit and charge their phone at the same time. Operation is via the multifunction steering wheel, voice control or iDrive controller. With external aerial for enhanced reception and to ensure that any radiation is dissipated outside of the car's interior. For vehicles manufactured from September 2005 onwards.

2 + 3 Bluetooth handset

Fitted in conjunction with a Business or Bluetooth hands-free kit, this option gives drivers access to all the functionalities of their mobile phone, including text messaging. An external aerial guarantees excellent reception – and as a result, sound quality – whether calling hands-free or using the handset. When not in use, the handset is stored in either the telephone cradle in the front or the charging cradle mounted in the rear centre armrest. For vehicles manufactured from September 2005 onwards.

4 BMW Professional car phone

This built-in Professional car phone allows you to make calls via the hands-free kit and to send SMS (text) messages. It features a Bluetooth interface, is dual-band-compatible, has a cordless handset, and is operated from the multifunction steering wheel, the iDrive controller or via the optional **voice input system**. In combination with the Professional navigation system, the Professional car phone also provides access to BMW Assist Telematic services. These include emergency call, BMW roadside assistance, traffic information, enquiry services and messages from the driver's contacts. For vehicles manufactured up to September 2005.

5 CD holder

Incorporated into the multifunction storage system (see p. 23, Fig. 1+2). For four CDs.

6 Cassette box

Incorporated into the multifunction storage system (see p. 23, Fig. 1+2). For four cassettes.

CD/DVD storage sleeve (not shown)

For easy attachment to the sun visor. Holds ten CDs or DVDs.

7 DVD changer

DVDs can be watched either on the control display or, where fitted, on the monitor in the rear. Only in conjunction with the navigation system and TV function. Mounted in the luggage compartment to save space. For six DVDs.

8 CD changer

Fitted below the interior trim strip. For six CDs.

9 MD player

In the centre console.

1+2 Side View Camera

For safe turning at road junctions with poor visibility. A camera and a special glass prism record the cross-traffic (Fig. 2, blue area in illustration) and show the image on the control display. The camera is located in the middle of the car under the bumper. For vehicles manufactured up to March 2005 only.

3 Rear View Camera

Ensures maximum safety when reversing. When reverse gear is selected, a 131-degree wide-angle camera in the luggage compartment lid starts filming the area behind the vehicle. The feed from the camera is shown on the control display.

4 Night Vision

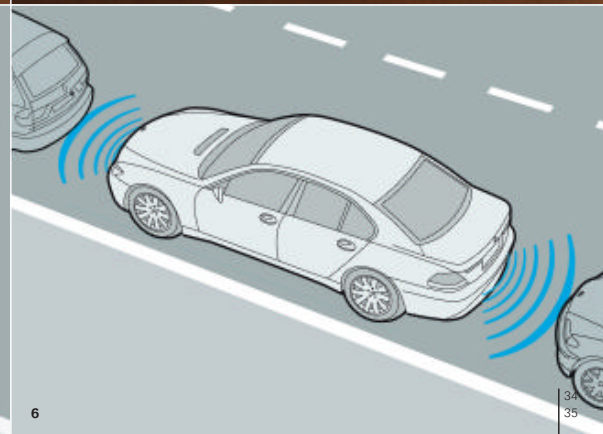

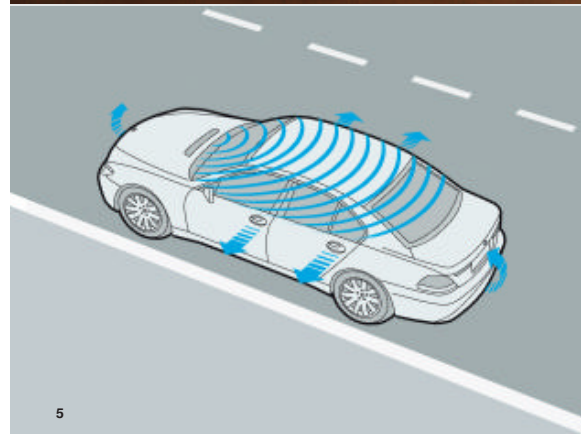

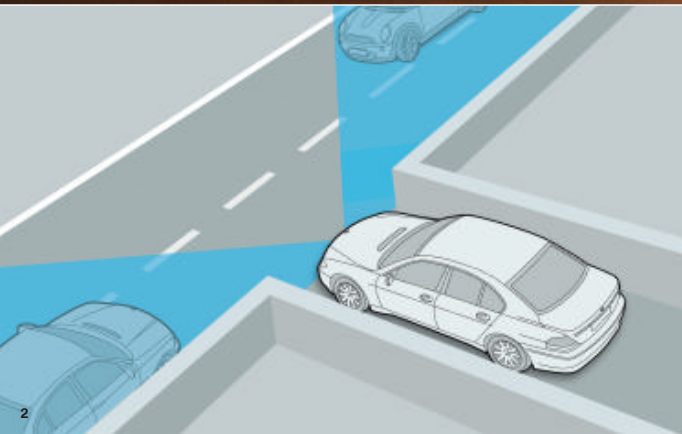

Allows drivers to see what's coming in darkness or poor light conditions. A thermal imaging camera built into the front bumper supplies images of people and animals at a range of up to 300 m, and these are displayed on the control display, allowing potential dangers to be identified in plenty of time – even when they are outside the area illuminated by the headlights. It is particularly useful in foggy conditions.

5 Alarm system

Electronic monitoring system which responds to any unauthorized opening of the doors and engine/luggage compartments with acoustic and visual alarms. With remote control.

6 Park Distance Control

Makes it easier to park and manoeuvre in tight spaces. Obstacles closer than roughly 1.5 m are detected by sensors in the front and rear bumpers, and a combination of the control display and an acoustic warning tells the driver how far the car is from hitting them.

Original BMW accessories offer a wide choice of transportation and luggage compartment solutions, giving you all the extra carrying capacity you need. All Original BMW accessory products, from roof rack systems to solutions for the luggage compartment and interior of the car, are designed especially for your BMW, and are extremely user-friendly – so you can use the car for whatever activity you want with a minimum of fuss.

1 BMW roof box 460

Capacity: approx. 460 l. L x W x H: 230 x 82 x 37 cm. Convenient and easy loading thanks to an innovative system (see Fig. 3) that opens from both sides. Features anti-theft triple central locking on both sides for added peace of mind. Includes ski rests. Available in silver or black.

2 + 3 BMW roof box 350

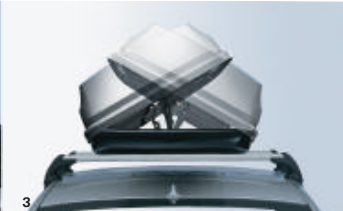

Capacity: approx. 350 l. L x W x H: 140 x 90 x 39 cm. Convenient and easy loading thanks to an innovative system (Fig. 3) that opens from both sides. With anti-theft triple central locking on both sides. Available in silver.

4 BMW roof box 320

Capacity: approx. 320 l. L x W x H: 225 x 55 x 37 cm. Including ski rests. With anti-theft triple central locking. Available in silver and black.

5 Universal lift and adapter for roof boxes

The simple way to fit and remove all BMW roof boxes. Helps to save space by storing the roof box under the garage roof.

6 Ski and snowboard holder, lockable

Suitable for carrying two snowboards and two pairs of skis, or up to six pairs of skis. Poles can also be carried.

7 BMW base support system

Maximum permissible roof load: 100 kg. The base support arms are made of high-strength aluminium tubing. The BMW base support system with anti-theft locks complies with the most stringent safety requirements.

7 Universal holder

Provides secure support even for large, bulky items. Consists of four infinitely adjustable holders, two tensioning straps and four strap eyelets.

1 Luggage rack

High load-carrying capacity. Made of lightweight, high-strength aluminium.

2 Surfboard holder

With board supports made of impact-resistant plastic, an integrated mast carrier, strap eyelets and tensioning straps.

3 Bicycle holder for the trailer tow hitch, lockable

The bicycle holder and bicycles are secured against theft. For carrying one or two bicycles. An **extension set** for a third bicycle is available.

Trailer tow hitch* (not shown)

Depending on the model, the trailer tow hitch is approved for trailer weights of up to 2,275 kg, with a nose weight of up to 75 kg. When the tow ball is removed, the trailer tow hitch is not visible. With trailer stability control.

Wing mirrors for trailer towing (not shown)

Vibration-free thanks to special holders.

4 Bicycle lift

Allows a bicycle to be effortlessly lifted onto the roof rack and removed again. Suitable for different bicycle sizes.

5 Racing cycle holder, lockable

Suitable for racing cycles with quick-release skewers on the front wheel. A holder for securing the front wheel to the base support system is also available.

6 Touring cycle holder, lockable

Robust attachment for transporting a bicycle with a frame diameter of 25 to 80 mm, also suitable for mountain bikes. A **single locking set** for fitting up to four touring cycle holders on the base support system is available.

*Not available in Australia.

1 Luggage compartment floor net

Secures objects of varying sizes quickly and safely. Attaches to the eyelets that are fitted as standard to the floor of the luggage compartment.

2 Luggage compartment tie-down straps

Two tear-resistant tie-down straps secure items in the luggage compartment quickly and safely. Available with two different fastening mechanisms.

3 Collapsible box

Waterproof, quick to assemble, and held together with Velcro-type fasteners. For loads of up to 20 kg. Available in two different sizes.

4 Luggage compartment tray

Shatterproof, acid-proof and impact-resistant. The tray fits precisely into the luggage compartment floor.

5 Fitted luggage compartment mat

Non-slip, precision-fit mat made of durable plastic. Oil and solvent-resistant.

Anti-slip mat (not shown)

Prevents objects from sliding around.

Multifix system (not shown)

Special brackets with non-slip finish.

6 Loading sill protective mat

This padded non-slip mat folds out over the loading sill to protect it against damage. It also provides a place to sit.

1 Protective rear cover

This separable cover protects both the rear seat bench and door linings. It is water and dirt-repellent, and features openings for three-point belts, which also allow items such as the dog safety harness to be fitted.

2 Dog safety harness

Available in a choice of three sizes. It is designed to secure dogs on the rear seat bench, thereby enhancing the safety of passengers. A lead can also be attached to a metal ring.

3 Coolbag

CFC-free electric cooler which chills its contents to approx. 20°C below the temperature inside the vehicle. Capacity: 14 l.

4 Coat-hanger

Can be easily attached to the headrest and removed again.

4 Seat-back storage pocket

Containing compartments of different sizes, this storage pocket matches the dimensions of the front seats precisely, and can be fitted on either the driver or passenger side. It is the perfect place to store small items. Available in black and lemon.

5 Clean bag

This textile bag with a removable plastic liner can be attached to the nets on the seat backs in a matter of seconds.

6 Umbrella bag

With matching BMW umbrella. Installed in the front passenger footwell for ease of use.

Storage net in footwell (not shown)

Mounted in the front passenger footwell on the opposite side to the door. Divided into two sections. Supplied with **warning jacket**.

7 Skibag

Makes it easy to stow skis away through the opening in the rear seat bench. Access is via the luggage compartment. When not in use, the skibag can be stored behind the rear centre armrest to save space.

Cleaning and care products from BMW – a sparkling performance.

An extensive range of cleaning and care products is available for your BMW, helping to keep it looking its best. All of them are environmentally friendly, and there are specific products to protect and care for all of the surfaces found in BMW cars, including leather, fabrics, plastics, glass and paint. All these products are easy to use, and keep materials in outstanding condition, so you can be proud to be seen in your BMW everywhere you go in it.

BMW's cleaning and care products ensure that your BMW remains a pleasure to drive, all year round, and for many years after you bought it. The range includes products to suit every task.

Sparkling rims and gleaming paint will maintain the exclusive look of your car. For example, rim cleaner gel keeps Original BMW alloy wheels free of brake dust while Original BMW Hard wax with nano-technology keeps the car's paintwork looking as good as it did in the showroom – its near molecular-size particles seal the paint up to 300 per cent more efficiently than products without nano-technology.

The use of carefully selected, high-quality materials in the interior of your BMW gives it an exclusive atmosphere, and cleaning and care products will ensure that it stays that way. They clean and care for its surfaces, so that you can, for example, enjoy the smell and texture of the characteristic leather upholstery for many years.

And as well as keeping your BMW looking good, BMW's cleaning and care products also keep you safe, with products designed to meet the specific requirements of different times of the year. For example, Original BMW clear glass ensures that windscreens stay clean and smear-free, in summer and winter alike. It even smells good too.

An overview of all the cleaning and care products available can be found in the index.

The right accessories, the right service.

The excellence of BMW cars is matched only by the quality of its service. When you visit your BMW dealer, you can expect expert professional advice from highly trained staff working with the very latest in diagnostic technology. All work on your car – from the fitting of accessories to the retouching of paintwork – will be carried out to the highest quality and environmental standards, and BMW's global dealer network means help is always at hand, wherever you are in the world. Because the quality of service you get off the road should be as memorable as the Sheer Driving Pleasure you get on it.
